DIRECTIONS

- 1) The statements in the left column are based on the standards of effective teaching practice as outlined in the teacher licensure requirements of the state of Minnesota.
- 2) The student teacher should demonstrate these standards in his or her teaching and interactions with the children.
- 3) Darken the appropriate circle as to whether the standard is evident in the student teacher's planning, teaching, or assessing learning.
- 4) If your assessment of the student teacher is "partly" or "no," circle the specific number/letter combination that the student teacher has not yet achieved. The number-letter combinations refer to the specific standards. Normal-faced items are from 8710.2000. The other items are from Standards of Effective Practice 8710.3200 (bold). See the following sheets for the complete descriptors.

NOTE: Seniors in Student Teaching I should demonstrate mastery of the standards; ratings of other than "yes" should be discussed with the student teacher and the college supervisor. In circumstances where the student teacher had no opportunity to demonstrate a standard, an NA (not applicable) may be used.
